

AQUOLAC PAINTS

AQUOLAC : AQUOPLAST Super Plastisizer As Per IS:9103 Specifications

It is specially formulated powerful admixture which reduces the water requirement in Concrete resulting in an enormous increase in the concrete strength. It improves the Workability of concrete producing self compacting & flowing concrete giving better bonding, more durability, less permeability & excellent surface finish. It decreases the setting time by accelerating the process. Use of super plasticizer results in relatively dense concrete which is waterproof also. It also helps in reducing Cement content by keeping the workability & water / Cement ratio constant for varying proportions of Aquoplast.

Packing : It is available in 5 Ltrs., & 20 Ltrs. & 200 Ltrs. Barrel.

Storage : No special storing facilities are required.
