

AQUOLAC PAINTS

OASIS ACRYLIC WASHABLE DISTEMPER

OASIS is an Acrylic Washable Distemper based on acrylic copolymer resin in paste form for Interior decoration of fully matured plastered walls, Bricks work, Concrete surfaces. OASIS is more economical, it dries to a smooth and Matt finish which, when fully cured, can be washed with mild detergents & Water after 2-3 weeks to revive the beauty of original finish.

Directions for Use : The surface to be painted should be dry clean, scrapped well removing all loose particles. All the cracks filled up with appropriate filler to provide the smoothened surface. Thinning the material with one liter of water every 1 Kg. of Oasis & stirring well, 2 coats of material is sufficient with interval of 8 hours. Tinting with universal strainers must be done before thinning.

Covering Capacity : It covers 6m²/Kg. approx.

Packing : It is available is 1 Kg, 2 Kg, 5 Kg, 10 Kg. & 20 Kg.
